

CHROPYNSKA

ENVIRONMENTAL REQUIREMENTS FOR BUSINESS PARTNERS

The company Chropyňská strojírna a.s. has implemented an environmental management system in accordance with the standard ČSN EN ISO 14001:2016.

In its Quality and Environmental Policy, the company commits to managing its corporate activities in compliance with all legal regulations, including laws, decrees, and regulations, including those of local authorities, to minimize environmental impacts. One of the goals in fulfilling this policy is to inform and encourage our main business partners to adopt similar environmental care principles.

Therefore, in accordance with its quality and environmental policy, Chropyňská strojírna a.s. requests your compliance with the following provisions within the company's premises:

1. The business partner is obligated to conduct activities in accordance with current legislation in the field of environmental protection, occupational safety and health, fire protection, and internal regulations of Chropyňská strojírna a.s.
2. The contractor is required to sort waste by types and ensure protection against unwanted leakage.
3. When using transportation or other equipment, strictly adhere to and maintain good technical condition and comply with all legal requirements related to the environment (emission limits, oil leaks, dust, noise, etc.).
4. Use only pre-approved chemicals within the premises of Chropyňská strojírna a.s. In exceptional cases, written permission may be granted for the use of a specific type of chemical.
5. Respect the strict prohibition of pouring hazardous substances into the sewage system.
6. The business partner is responsible for handling waste generated during their work activities until its utilization or disposal, either by themselves as an authorized person or until its transfer for utilization or disposal by an authorized person.
7. Respect the smoking ban throughout the premises of Chropyňská strojírna a.s.
8. Supplied products - materials must meet all legal environmental requirements.
9. Supplied products - materials must be secured to prevent pollution or leakage during transportation or handling (spillage, dusting, pollution, water leakage, etc.).
10. For activities that could negatively affect the environment, it is necessary to seek approval from an authorized representative of the company.
11. In case of suspicion of any ecological discrepancy or accident, report it immediately to any company supervisor.

*Chropyňská strojírna a.s. appreciates your adherence to the above principles in advance.
Mgr. Martin Schmied - Representative of Management for QMS, EMS, and SMS*
